Report of National Webinar entitled Space Weather & its Impact On Earth

Seminar	Participants	Date
Space Weather and its Impact on Earth	202	10-03-2021

At the beginning of seminar Mr. Sunit Kashiv has given the Introduction of Govt. College Timarni. After this program convener Mrs. Surabhi Chourey has given the seminar introduction and outline of the program. After that, College Principal Dr. Vineeta Raghuwanshi has welcomed all the Guests and Speakers.

Chief Guest Dr. Alok Rastogi described about the Space Weather that it is a branch of space physics and aeronomy, or helio-physics, concerned with the time varying conditions within the Solar System, including the solar wind, emphasizing the space surrounding the Earth, including conditions in the magnetosphere, ionosphere, thermosphere, and exosphere. He also said that many physical phenomenon are associated with space weather.

The First eminent speaker Dr. Ambali KM describe fundamental mechanism of weather. She briefly explained about space weather and solar terrestrial environment. She described about Sun's magnetic field "parker spiral", Solar flare, CME (**Coronal Mass Ejections**), Aurora. She explained these with a video presentation. "She clears about Impact of Geo Magnetic storms on Radio communication, Navigation, Satellites, communication etc. she gives the details about universal power shutdown in March, 1989. Students very curious to talk with Dr. Ambali and she clear their doubts very nicely.

Second eminent speaker Dr. Amit Jain begins his lecture with Ionospheric irregularities. He explain about Bhopal weather and Polar weather. He also explained the e-density in night & day. He describe about Sky waves that how they come to Earth. He Discussed about the parameter for geomagnetic storms and instruments for ionosphere monitoring. He demonstrate about GPS tracking with the help of live demo test due to GPS Test App. By this he explains the there are more than 24 satellite around the Earth.

The third eminent speaker Dr. Richa Trivedi starts with to understanding what is Solar flare, and increasing ionization due to solar flare and D, E, F1, F2 layers, μ change and Diamond variation. She explains how the analyze the effect of errors on accuracy. and she describe about GPS system error of position error. She tells about the vast research which is going on this field, what are the future on this field and how the student can come to join this field.

At the end the program convener Dr. Mahendra Singh Tadwal has given vote of thanks to all Guests, Speakers. Participants.
