

BEST PRACTICES 2021-22

Best Practice –I

Education in Social Norms and Ethical Values-

Objective-

Our college equates human excellence with nobility and humbleness in character. The objective of this practice is to empower students with value based education to explore their potential and innate qualities.

Context –

Students are encouraged to understand and imbibe fundamental social norms and ethical values like truth, love, compassion, non-violence for leading a stress free college life and becoming a good human being and good citizen of our country.

Practice-

Our college starts any function or event with the Saraswatipoojan. On National Youth Day teachers of the college spoke on ethical, moral, and spiritual values taught by Swami Vivekananda. In classes of personality development and foundation course teachers teach importance of honesty, trustworthiness, integrity, tolerance through the chapters in the syllabus. An educational tour was also organized to Vedic Vidhyapeeth, where students got a chance to learn about Vedic culture.

Evidence of Success-

The values inculcated in the institution are reflected in student's behavior. Students displayed their social responsibility and ethics at the time of COVID-19. Students also indulge in different programs where they encourage people for vaccination, voting and swachhta abhiyan. Not only for humans, students also exhibit their compassionate behavior for birds and animals.

Problems Encountered and Resources Required-

Less participation of students in activities. Inadequate funds for motivation of students.

Best Practice-II

Social Empowerment of Girl Students-

Objective-

In our institution we endeavor to empower girls through, value based education. We aim at holistic development of our girl students.

The Context-

Most of the students belong from poor and agricultural background. Females are not given various opportunities for their personality development. The college strives hard to provide an atmosphere in which the personality of the student, blossoms to its fullest potential.

The Practice-

The practice involves making the maximum number of students, participate in different activities, aimed at honoring the innate talents and realizing their multiple potentialities. Girl students of the college not only showed their abilities in academic but also in co-curricular activities. The camps of NCC and NSS also aims at bringing forth the leadership potential and enhances their life skills and makes them a kind and tough personality.

Evidence of Success-

Every year our girl students perform well in academics and also in other activities. Ku. Sapna Malakar, bagged, fourth position in MA Final Economics (session 2020-21). Darshna Purohit, NSS volunteer of our college, selected for State Level NSS camp at Shivpuri, represented our district and she got selected for NIC at Bharathiar University, Coimbatore. In NCC this session, twenty girls cleared exam for 'C' certificate and thirty six girl cadets cleared exam for 'B' level certificate. Three NCC girl cadets are selected for Flag March and one girl cadet is selected for Guard of Honour. In sports activities, girl students showed their excellent performance. Jayshree Pachore won silver medal in Karate in Inter- College Karate Competition in Kabbadi (State Level Competition)

Problems Encountered and Resources Required-

It becomes difficult for the students to achieve, a perfect balance between academic pursuit, on one hand and pursuit of cultural, sports and community oriented programs on the other, secondly some students live in remote areas and they have limited options to commute. So they can't give time for extra activities.
