

INSTITUTIONAL DISTINCTIVENESS (2022-23)

Cultivation of Good Values

Our college focuses on that, there must be unison of word and deed, in order to achieve human excellence. As NEP – 2020, aims to inculcate in the learners, universal human values, like truth, righteous conduct, peace, love, non-violence, scientific temper and citizenship values which play a significant role in the whole life of a human being. These values in the education system are necessary to create effective students, who will bring the nation to greater heights. Different units of the institution as NSS, NCC, Child Protection Club, strive to engender sentiment of patriotism and sympathy for the less privileged. The NSS and NCC unit, organize camps not only on life skills but on dignity of labor also. The NSS volunteers undertake cleanliness drives within the campus as well in their seven days residential camp organized in Godgram or in nearby village. Volunteers of NSS and cadets of NCC and other students have done remarkable work during COVID. Students promoted local people to get vaccinated by door to door campaign and college had also set up a temporary call centre, where students made calls to beneficiaries for verification. Volunteers of our college not only created awareness for vaccination even they helped Health Department by working as verifier and went door to door with the health team for vaccination. Volunteers and NCC cadets encouraged people for plantation and download of Vayudoot app. Students also received appreciation certificate by D.M. of Harda for their efforts. An educational tour was organized for final year of students, to Vedic Vidhyapeeth so that students would learn about Vedic studies and how Vedic education not only emphasizes social duties but also promotes internal qualities and personalities of the learners. These are the efforts, made by the institution to preserve and promote Indian Languages, ancient traditional knowledge , arts, culture and traditions.
